NARESH NAGAR

LINUX ENGINEER | LINUX ADMINISTRATION | DEVOPS

Bhopal, Madhya Pradesh | 9399718738 | nagarnaresh2422@gmail.com | linkedin.com/in/naresh-nagar-23b63a374

PROFESSIONAL SUMMARY

Linux and DevOps-focused professional with an MCA degree, RHCSA certification (RHEL 9.3), and hands-on internship exposure to Linux server preparation, OpenStack infrastructure, and backup operations. Familiar with Linux administration, basic Python scripting, system troubleshooting, networking fundamentals, and DevOps concepts. Seeking a Linux Engineer role to contribute to reliable infrastructure operations and continue developing automation and monitoring skills.

TECHNICAL SKILLS

- **Linux Administration: RHEL, Rocky Linux, Ubuntu, user management, file permissions, services, SSH, package management, and log analysis.**
- **Monitoring & Troubleshooting: top, ps, free, df, du, uptime, systemctl, and journalctl.**
- **Python Scripting: Basic Python, loops, conditions, functions, file handling, and simple automation.**
- **DevOps Tools: Git, GitHub, Docker, GitHub Actions, and CI/CD fundamentals.**
- **Cloud & Infrastructure: AWS fundamentals, Terraform fundamentals, and OpenStack.**
- **Networking: TCP/IP, DNS, IP addressing, ports, and connectivity troubleshooting.**
- **Backup & Storage: NAS fundamentals, Veeam Backup, and tape library operations.**

EXPERIENCE

DevOps Intern | ITE Infotech Pvt. Ltd., Bhopal
August 2026 – Present (confirm joining date)
• Assisted with Linux server preparation and configuration for OpenStack infrastructure.
• Performed Kickstart-based installation and setup across 16 blade servers.
• Worked on configuring server ports to support required service connectivity.
• Gained practical exposure to OpenStack setup, infrastructure provisioning, and Linux server operations.
• Supported backup-related work involving a Spectra 200 tape library, NAS storage, and Veeam Backup software.

PROJECTS & PRACTICAL LABS

Linux Administration and Troubleshooting Lab
• Practiced service management, user and permission administration, package management, and system-log analysis.
• Used standard Linux utilities to inspect CPU, memory, disk usage, and running processes; practiced troubleshooting in lab environments.

CI/CD Pipeline with GitHub Actions — Learning Project
• Practiced Git-based workflows and explored automated build/test workflow concepts using GitHub Actions.

Python Automation for Linux — Learning Project
• Developing basic scripts for file handling, system-information collection, and routine administration concepts.

EDUCATION

Master of Computer Applications (MCA)
Makhanlal Chaturvedi National University of Journalism and Communication, Bhopal
2024–2026

Bachelor of Computer Applications (Honours) (BCA Hons)
Makhanlal Chaturvedi National University of Journalism and Communication, Bhopal
2021–2024

CERTIFICATIONS

Red Hat Certified System Administrator (RHCSA) — RHEL 9.3
National Cadet Corps (NCC) — ‘C’ Certificate
